

**TILE CONTRACTORS  
ASSOCIATION OF HAWAII**

The 18th Annual Pacific Building Trade Expo by the AIA/CSI at the Hawaii Convention Center will be held on Tuesday, October 24, 2017. The TCAH will have sixteen (16) member booths and we are pleased to announce that Schluter Systems will be conducting a seminar to provide continued support to promote our industry.

**Legislative Report – Bills That DIED (Favorable for Subcontractors)**

**SB 1068 HD. 1 Allow the GC to change list of subs if there were license problems due to insurance or renewal issues but would allow them to list false subs, shop and substitute later.**

**HB 573 Allow the GC two hours after they have filed a bid with the state or county to change their subs for some unreasonable reasons that would have allowed game playing, allowed a sub to file suit if they could prove bid shopping which would then prevent the sub from getting a job again from that GC.**

**HB 1229 Would increase the total amount of a job from \$250,000 to \$1,000,000 when a GC did not have to list his subs (particularly would hurt subs on smaller renovation jobs).**

**HB 1322 Give \$500,000 to the State Procurement Office to study the federal law (which does not have sublisting) and to make recommendations for possible changes next year.**

**2017 Membership Scholarship Program**

**On behalf of the Board of Directors for the Tile Contractors Association of Hawaii, they have created a Membership Scholarship Program to recognize and assist the families of our signatory members, by creating an opportunity for our children to further their educational pursuits. The scholarship is based on the MERIT of the Student.**

- A student will be awarded up to a \$2,500.00 monetary scholarship to be applied to the 2017-2018 school year.
- Students who are related to a signatory member of the TCAH can apply.
- High school seniors and/or full time students enrolled at an accredited two or four year college or university may apply. Vocational and technical schools are not eligible.
- Previous recipients are allowed to apply once again.
- Application available at [www.tilehawaii.com](http://www.tilehawaii.com) under the Benefits tab.
- DEADLINE to submit the application is July 14, 2017

**Porcelain Paver Tiles from Selective Stone**

Porcelain pavers have mostly been used for traditional interior tiling purposes on both floors and walls. But with advances in manufacturing techniques and new technology, it is now possible to make porcelain pavers & tiles in a much greater thickness and size, enabling the porcelain pavers to be used for exterior structural paving applications.

Selective Stone's full-bodied porcelain paver tiles come in large formats and mimic travertine, limestone and natural quartzite.

Porcelain Pavers boasts an outstanding combination of qualities unmatched by any other floor coverings. High-tech manufacturing processes involving use of specialized clays, high temperatures and pressures resulting in a porcelain paver of unique strength and hardness, extremely resistant to external abrasion and is even resistant to scratching with steel tools. In addition to its technical and aesthetic properties, porcelain pavers range can meet a number of important safety requirements for exterior floor coverings in public places, combining an anti-slip surface with extreme wear & weather resistance.
